Remarks: Condition of interest payment

1. The formula of interest calculation Interest of Deposit = Principle X Interest Rate(%) X number of deposit days

365

- 2. The bank uses 365 days for interest calculation.
- 3. For saving deposit accounts, the bank calculates interest on semi-annual basis as well as pays to the customer on 15th June and 15th December every year
- 4. The bank doesn't pay the interest for deposit period less than 3 months in case that this is a withdrawal prior to the maturity date of time deposit account
- 5. The bank will use the saving deposit interest rate to pay the interest for deposit period more than 3 months in case the this is a windrawal prior to the maturity date of time deposit account
- 6. The bank may pay interest rates highet than the announced rates (which have to get approved by Top Management) to potential customer who is a large depositor or have the trend to use other bank's financial products

(Mr. Wu Lin) Senior Executive Vice President
