Amount (from 1,000,000,000 Baht)	1.550%	1.550%	1.250%	1.625%	1.625%	1.250%

**Remarks:** Condition of interest payment

1.The formula of interest calculation Interest of Deposit =  $\frac{\text{Principle} \times \text{Interest Rate}(\%) \times \text{number of deposit days}}{365}$

2.The bank uses 365 days for interest calculation.

3.For saving deposit accounts,the bank calculates interest on semi-annual basis as well as pays to the customer on 15<sup>th</sup> June and 15<sup>th</sup> December every year.

4.The bank doesn't pay the interest for deposit period less than 3 months in case that this is a withdrawal prior to the maturity date of time deposit account

5.The bank will use the saving deposit interest rate to pay the interest for deposit period more than 3 months in case the this is a withdrawal prior to the maturity date of time deposit account.

6.The bank may pay interest rates higher than the announced rate which have to be approved by General Management to potential customer who is a large depositor or have the trend to use other bank's facilities.
